Application For Renewal of Discharge Authorization No. 296-01

Dear Mr. Brown:

The discharge authorization (DA) for Ash Grove Cement Company (DA 296) expires on August 16, 2001. To continue legally discharging please submit your application for renewal no later than February 28, 2001.

If the volume of your waste has not increased or the character of your effluent has not changed from that described in your most recent application and you do not expect such changes to occur within the next five years, your renewal application may consist of just a letter. The letter should request renewal and state there has not been a change in operations.

If, however, you have either changed your discharge or expect to within the next five years, please contact me at (206) 263-3024 or call the Industrial Waste Program at (206) 263-3000 for a new application.

King County Code 28.84.060-Water Pollution Abatement authorizes a fee for each DA drafted by the Department of Natural Resources. During 2001, the renewal fee for all DAs is \$705. We will bill you for the fee when we receive your renewal application.

If you are planning to stop industrial/commercial discharge to the King County sewerage system, please notify this office that you want your DA cancelled. This notification should detail how you plan to dispose of wastewater generated by your operation and include a schedule for terminating the discharge. If you have any questions, please call me at (206) 263-3024.

Sincerely,

A handwritten signature in cursive script, appearing to read "Barbara Badger".
